11th IBRO World Congress of Neuroscience

GRANADA
SPAIN · 9-13 September · 2023

Organised by:

IBRO is the global association of neuroscience societies established in 1961 that aims to promote and support neuroscience around the world through training, education, research, outreach and engagement activities, and the publication of our two journals, Neuroscience and IBRO Neuroscience Reports.

More than 90 international, regional and national scientific members constitute IBRO's Governing Council which, together with the IBRO Executive Committee and five Regional Committees, address the needs and advance the work of individual scientists and research communities everywhere. In addition, IBRO has partnerships with like-minded scientific organizations to identify priorities and help bridge gaps in knowledge, investment and resources in the field of brain research.

The IBRO Mission is to:

- develop, support, coordinate and promote scientific research in all fields concerning the brain
- promote international collaboration and exchange of scientific information on brain research throughout the world
- provide for and assist in education and dissemination of information relating to brain research

The Spanish Society of Neuroscience (SENC) brings together scientists working in the field of Neuroscience in Spain.

The objectives of the SENC, the Spanish Neuroscience Society, are:

- Promote the development of knowledge in the area of Neuroscience, bringing together scientists from different disciplines, and facilitating the integration of research aimed at all levels of nervous system organization.
- Promote education in the field of Neuroscience.
- Promote the relationship with national and international homologous societies and organizations.
- Inform the public about the results and implications of ongoing research in the areas of Neuroscience.

11th IBRO World Congress of Neuroscience

GRANADA
SPAIN · 9-13 September · 2023

Welcome Letter

We are delighted and deeply honoured to host the 11th IBRO World Congress from 9-13 September 2023 in the city of Granada, Spain

On behalf of the Spanish Neuroscientists, we are delighted and very honoured to host the 11th edition of IBRO World Congress, one of the most prestigious international scientific meetings. The Congress will be held in the city of Granada, Spain, from 9-13 September 2023.

This World Congress represents a unique opportunity for neuroscientists from around the world to get together and enjoy excellent science in one of Europe's most impressive cities. We hope you will join us in creating an inspiring and diverse scientific programme, meeting the spirit of IBRO.

The Congress venue, Granada, is a crossroads of the most diverse cultures since the earliest times. In addition to the beauty of its pre-eminent past, Granada now offers all the comforts of a modern and dynamic city, as well as a cultural, cosmopolitan, and youthful atmosphere, in part thanks to its university, -the University of Granada, founded in 1531 and the third largest in Spain.

Besides offering an excellent, inclusive and comprehensive scientific programme, currently under construction, we will support the training of young researchers from countries with limited resources, making it accessible at preferential prices for attendees from developing countries. In the spirit of IBRO, we are truly committed to the present and future of our researchers, fostering their training and building a strong neuroscience community worldwide.

Considering the current evolution of the pandemics, we are confident that, in over a year from now, we will enjoy the pleasure of face-to-face interactions in a health-safe and relaxed environment. As most of you, we are missing this much more fruitful and dynamic mean of discussion, that further encourages participation and inclusion, well beyond neuroscience.

We thus invite you to enjoy and take advantage of this unique event to showcase your science. On behalf of the Local Organizing Committee and of the SENC members, we thank you for your cooperation with the World Congress and look forward to welcoming you in Granada in 2023.

Why Take Part?

The 11th IBRO World Congress of Neuroscience is one of the most significant International Events organized in the field of Neuroscience. The Congress will provide a unique opportunity to meet the best experts and scientists from the entire world, promote your organisation, support your brand and maintain a high profile within your field of business.

The organisers extend a warm invitation also to educational centres, universities, publishing houses, local societies or NGO's to demonstrate their activities and research by participating in this event.

Early confirmation of your interest to exhibit will ensure the highest level of exposure to the attendees of the Congress. An extensive promotional campaign includes advertisements, e-mail newsletters and web exposure.

Explore the huge marketplace

IBRO membership includes 80 corporate and academia affiliated associations with over 75,000 neuroscientists. Around 4,000 neuroscientists from around the world are expected to attend the IBRO 2023.

Make the most of advertising media

IBRO 2023 offers you a diversity of advertising media: website links, e-newsletters, mobile apps, colorful on-site banners, printed programmes and brochures, social events, etc.

Important Get-Together opportunity

The organizers understand the importance of getting together and various networking opportunities will be organized in parallel to the scientific programme. Everything from the informal Pint of Science Nights, where the young researchers, general public and established experts can all mingle together to the classical Congress Gala Dinner.

Exhibit your products

The exhibit hall will accommodate poster sessions, rest areas and meeting points. Thousands of attendees can visit your exhibit stand and view your products and services. In below pages you could find the exhibition floor plan and select your booth.

Meet world class speakers & experts

IBRO 2023 will feature distinguished plenary and keynote lecturers in brain and neuroscience research including more than 40 symposia have been organized by experts in various fields of neuroscience. Exhibitors will get free admission to all scientific sessions.

Sponsorship Categories and Benefits

Sponsorship categories will be granted according to the total amount of the collaboration.

The following packages serve as a guide and are subject to change since the items and benefits will be granted on a first come, first served basis, and are subject to availability.

The benefits will be directly related to the category to which you belong.
