

## IBRO 2023 Hosting Labs

### Eligibility criteria:

- Applicants must be Early Career Researchers (ECRs).

### ECRs are defined as:

- Predoctoral and postdoctoral researchers (BSc, MSc, MD, Ph.D., or assistant/trainees) in basic or clinical research.
- The applicants shall be within 10 years of the award of the Ph.D. or currently Ph.D. students when starting the fellowship. This period will be extended in case of maternity leave or other justifiable leaves of absence.
- A proof of ECRs status\* is required to prove eligibility. This includes a valid student/trainee enrolment form (or letter on official letterhead), or a letter from current supervisor or from the host institution. Applicant name, institution name, and enrolment status must be indicated in the form.
- Applicants must not be currently working in a Spain laboratory. Spain nationals based at non-Spain institutions may apply if they have been working outside of Spain for at least 12 months.
- Applicants must have a first author abstract (poster or oral) submitted to 11<sup>th</sup> IBRO World Congress 2023.
- Applicants must be registered to attend 11<sup>th</sup> IBRO World Congress 2023.
- Applicants must provide proof of registration and abstract submission to the 11<sup>th</sup> IBRO World Congress.
- Applicants must provide proof of ECRs status\* along with the application form.
- Applicants should provide their curriculum vitae, maximum 2 pages, including education and degrees earned, **technical skills**, current research projects/techniques used, publications/abstracts/presentations, and any other relevant information.

- Applicants must provide a recommendation letter from a current supervisor (300 words max) indicating name, affiliation, address, contact details, along with this application.
- Applicants must choose two labs from the 'Host labs list'. Note that applicants will be desirably matched to their preferred options. However, depending on the number of applications received, applicants might be matched to other other labs (always related to their fields of interest) before rejecting the application.
- Applicants must cover the application form, which includes a motivation statement, where they should indicate what they expect from ECTP and from the specific lab that they are applying to, and in what they can contribute to both ECTP and the specific research group.
